Ивайло Бачийски
/Главен Технически Директор/

Изх. N: 0167/06.03.2019г.

Референция

Март 2017г.

Уважаеми Господа,

Удостоверявам че фирма Раком НТ ЕООД, София, ЕИК 831618935 предоставя на инж. ПЕТКО ПАВЛОВ ЕТ, ЕИК 110049840 своите услуги по инсталиране и въвеждане в експлоатация на оптични кабелни трасета в България.

Реализирани са следните проекти:

Тръбна мрежа за оптичен кабел, изпълнена от HDPE тръби, положени в изкоп с дълбочина 0,8 м, изградени с оптичен кабел с 12, 24 или 48 влакна.

Община Борован 20158 м.; Община Бяла Слатина 102095 м.; Община Козлодуй 1350 м.; Община Мизия 18503 м.; Община Оряхово 21017 м.; Община Хайредин 5450 м.

Обща дължина на кабелните трасета - 168 573 м., включително всички необходими изкопни и строителни дейности.

Обектите са изпълнени изцяло и приети за експлоатация през м. Февруари 2017г. с оценка за високо качество.

Раком НТ ЕООД е дружество с което сме установили и поддържаме успешно сътрудничество като партньори в продължение на много години в областта на инсталирането и въвеждането в експлоатация на линейни кабелни трасета.

Препоръчваме Раком НТ ЕООД и сме много доволни от тази компания в бизнеса, който заедно осъществяваме.

С уважение

(Управител — инж. Петко Павлов)

TO WHOM IT MAY CONCERN

Sofia, 2nd February 2017

Dear Sirs,

I hereby declare that company RACOM is offering its services to Telenor Bulgaria under the framework agreement for execution of our Rollout program.

RACOM has performed the following activities:

- Civil Works, installations works.
- Configuration according provided engineering work order.
- Power supply installation.
- Transmission solution - MW installation, alignment and initial configuration based on provided engineering work order.
- Commissioning of all the active equipment (BTS, MW).
- Installation and commissioning of optical cable routes.

Telenor Bulgaria is satisfied with the professionalism, project administration, flexibility and expertise quality demonstrated so far in the execution of the above mentioned activities, as well as the respected and fulfilled obligations and delivery schedules.

Bjorn Rakkenes
Sourcing and Logistic Director
Telenor Bulgaria

Letter of Reference

We, **HUAWEI TECHNOLOGIES BULGARIA EOOD**, hereby confirm that the company **Racom NT EOOD**, having its seat and registered office in the city of Sofia, Ljulin Municipality, Ljulin-Zapad, 33 Itzhak Gratziani Str., is a company with which we have established and maintained a successful cooperation as a cooperating company for many years, in the domain of installation and commissioning for GSM equipment.

We Huawei – the leading global information and communications technology & solutions provider, have won the tender for swap of technologies and upon the acquisition of Globul Bulgaria by Telenor Group in 2014. Currently, there is an upgrade of the network undergoing that has been conducted regularly in all locations within the country where GLOBUL has sites/locations and that are being swapped by Huawei equipment. The process started in April 2014, and it is planned be completed during first half of 2015. The project includes a full swap of the network – both 2G and 3G, upgrade of the company's access and backbone transport network as well as the core network, whereas Racom NT EOOD, as one of our long year subcontractor has remained a partner that successfully takes part in this process. We are very satisfied with this company in the business we do together.

Sincerely,

Liu Haibo,

Delivery&Service Department Director

REFERENCE LETTER

TO WHOM IT MAY CONCERN

We, Ericsson Telecommunications Bulgaria EOOD, are writing this letter to express our complete satisfaction with the services and the work provided by Racom NT EOOD in connection with the construction, installation and maintenance of Radio Base Stations and Digital Microwave equipment.

This very company is our longstanding and preferred partner in the implementation of our projects. Their services are provided in a professional manner, within predetermined time. The high qualification of their employees and good organization helps us to achieve our highest goals without excessive costs, resources and efforts.

We highly appreciate their efficiency and quick response which help us to be able of providing the best quality to our customers. Their satisfaction and our good achievements are significant enough for us for the good work of Racom NT and we intend to continue our relationship with them.

We recommend Racom NT to other companies requiring support for installation and construction, testing and maintenance services for RBS, Digital Microwave and other Telecommunications equipment.

Sincerely yours,

Milan Gospic

RE: Letter of Recommendation

We, Nokia Siemens Networks, are writing the present letter to express our complete satisfaction with the services and quality of work provided by Racom NT EOOD in connection with the installation activities of Nokia Siemens Networks' radio access telecommunications equipment related to the 2nd phase of Mobilтел EAD's RAN Modernization Project.

Racom was one of Nokia Siemens Networks' preferred partners in the domain of implementation in the a.m. project and we would like to underline that we were very pleased with the results and the professional level of services they have provided. Their technology and engineering expertise were highly appreciated and their contribution to the radio access network implementation project was of significant value, helping Nokia Siemens Networks to guarantee the best quality of project execution to our customer Mobilтел.

We value the professional relationship between both companies which has grown and has been field-tested in the past one year, and we feel confident to recommend Racom to other telecommunication vendors present in Bulgaria that are in need of support for installation and implementation of the radio access telecommunications equipment.

Sincerely,

TO WHOM IT MAY CONCERN

During second half of 2010 Racom NT's company participated in the implementation stage of so called "Blue Border" project. This is a complex IT, Radio, Optical and infrastructure project financed by European commission, dedicated to technical control of the future "Shengen" border along the Bulgarian Black sea coast.

Racom NT's company played a vital role in the communication network implementation. They were responsible for the poles construction, installation of Microwave (Mw) radio's dishes, installation of Mw equipment, configuration, testing and integration of radio relay equipment.

All the Racom NT's teams, that performed the job have had good experience and had enough training and tools to carry out the implementation tasks.

We were satisfied to work together with them to successfully implement the complex project that our consortium was dealing with.

REFERENCE LETTER

TO WHOM IT MAY CONCERN

During the last four years characterized with massive BTC Mobile's network built, "Racom NT" company was heavily engaged with Vivatel's network roll-out. They built initially "turn-key" BTS sites including equipment installation and a later on they were focused on the installation and commissioning of Microwave radio equipment, as well as for BTS, NB and ancillary equipment I&C. The biggest part of the Microwave radio network's implementation was done by "Racom NT" and the quality was very good.

They were the only company that could manage cut-over of swapped or replaced equipment, that could do integration, optimization and testing of large variety of radio equipment from different vendors and all these was achieved with minimum traffic downtimes. Their technology and software expertise was highly appreciated and their contribution with BTC Mobile's network implementation was quite valuable.

Изм. № 03-08-911, 10.03.2004 г.

СОФИЯ

Юни, 2002 г.

Уважаеми Г-н Тодоров,

Ръководството на "Национално Управление Радио и Телевизионни Станции" към БТК-ЕАД изразява своята най-искрена благодарност към Вас и екипите на Вашата фирма, които изградиха и въведоха в експлоатация първите у нас **"Системи за кодиране/формиране на цифров поток"**

Тези високотехнологични съоръжения включват:

1. MPEG-2 Video Codec Equipment
2. Video Protection System
3. N:M Matrix System
4. Digital Matrix System (Network Electronics)
5. Network Management System

Те бяха монтирани и въведени в действие като системи в 4 /четири/ направления, включващи 16 /шестнадесет/ станции, а именно:

1. Линия 1 – РРС София-Пазарджик-Пловдив-Аида
2. Линия 2 – РРС София-Петрохан-Монтана
3. Линия 3 – РРС Ст.Загора-Казанлък-Габрово-В.Търново
4. Линия 4 – РРС София-Копотото-вр.Виден-Благоевград-Пъстрец-Враня-Петрич

Ние благодариме най-вече за високото качество и професионализъм на работа на вашите екипи. Въпреки, че съоръженията като технологично нови бяха непознати, те се справиха с лекота и в предвидените кратки срокове, което ние високо ценим.

Раком НТ ще бъде предпочитан наш партньор при изграждане на обекти с високотехнологични съоръжения.

Ефективността, оперативността и точността на Вашата фирма позволи на БТК да предостави на своите клиенти висококачествени телекомуникационни услуги в предвидените срокове.

Препоръчваме Раком НТ на други фирми, които имат необходимост от професионално и висококачествено изграждане и въвеждане в действие на подобен вид съоръжения.

С уважение:

Антон Зафиров, Генерален Директор

С настоящето Siemens IC EOOD потвърждава, че фирма Раком НТ ЕООД бе наета като подизпълнител на част от сервизните дейности (монтаж и пуск) на проекта "Дооборудване и разширение на цифрови радиорелейни линии по ЛОТ 3 на проекта DON" на БТК.

До настоящия момент са пуснати успешно в действие радиорелейните линии от Смолянски регион. Апаратурата работи нормално. В близко време предстои пускането на разширението на цифровите радиорелейни станции Видин, Белоградчик, Монтана, София, вр. Виден, Благоевград.

В съвместната ни работа до сега фирма Раком се прояви като професионално изградена и със значителен опит, на която може да се разчита.

Май, 2002 г.

Уважаеми Г-н Тодоров,

Изразявам моята благодарност към Вас и екипа на Вашата фирма за професионализма и високото качество на извършената работа в рамките на проекта ЛОТ 3 от обект Цифрови Насложени Линии / ДОН / на БТК.

За БТК Раком НТ изгради и въведе в действие SDH Цифрова радиорелейна мрежа с над 40 станции на територията на цялата страна.

В последните две години / 2001г. и 2002г. / Раком НТ разшири тази високоскоростна мрежа с изграждането на над 50 отклонения реализирани с PDH Цифрови радиорелейни линии.

Всички SDH и PDH линии в националната Цифрова радиорелейна мрежа на БТК работят безупречно.

Ние високо ценим ефективността, оперативността и точността на Вашата фирма, което позволи на БТК да предостави на своите клиенти висококачествени телекомуникационни услуги в предвидените срокове.

Препоръчвам Раком НТ на други фирми, които имат необходимост от професионално и висококачествено изграждане и въвеждане в действие на SDH и PDH Цифрови радиорелейни линии.

С уважение

Dear Mr. Todorov,

I am writing to inform you that I will return to Japan soon to take up a new assignment at our Yokohama Plant.

My three and a half years stay in Europe have been the most exciting, interesting and valuable experience for me. The major developments in the market, caused by the political changes in the EU and Central and Eastern Europe, have made my stay very challenging and enjoyable. I was amply rewarded in both my professional and private life to experience so many different cultures and new areas.

I would like to express my sincere thanks and appreciation for the pleasant support and co-operation which you have so kindly extended to me.

I would be most grateful if you would extend the same warmth and support to Mr. Kazuhiro Yamamoto. He was previously Assistant General Manager of our Microwave & Satellite Communications Division in Yokohama, and has been assigned as my successor, as of the 16th of December 1994.

In order to assist Mr. Kazuhiro Yamamoto during this important period, I will stay a little bit longer here. After that, my new assignment will be as Associate General Manager of 2nd Overseas Microwave & Satellite Communications Systems Division in Yokohama, Japan. As such I will stay involved in our European activities.
My new business address will be:

NEC Corporation

Dear Mr. Todorov

I would like to take this opportunity to express my thanks to you and your staff for the outstanding effort in support of Satellite Transmission Systems leading to the recent successful completion of the INTELSAT AOR Standard A Earth Station at the SHIPKA Station in Bulgaria. RACOM NT proved itself to be a technically capable and responsive installation team member.

RACOM efforts included installation of electrical power equipment, supervision of civil works, erection of an 18.3 meter antenna and installation of all the satellite ground communications equipment. RACOM also provided invaluable assistance with in-country shipping and customs clearance. I would highly recommend RACOM NT to other companies requiring support for installation and testing services for microwave, satellite and other communication equipment.

We look forward to successful completion of the second INTELSAT Earth Station with the support of RACOM in the coming year.

Very truly yours
